TURNKEY PalletPak SERVICE SOLUTION

OnePak provides a turnkey solution that enables our recycler clients to bundle the delivery and pickup of a PalletPak kit with the recycling fees for the contents received. Sell it as a package deal and get paid up front, and we'll handle the details whenever the customer calls to pick up a full PalletPak.

HERE'S HOW IT WORKS:

- OnePak sets up a private-labeled online order form for the service.
- Customers order a PalletPak online; you bill them up front.
- OnePak receives the orders electronically and ships out the kits.
- Customers fill up their PalletPaks over time and order a pickup online.
- OnePak arranges for the pickup and the delivery to your facility.
- You are invoiced for kits and shipping as orders occur.

IT'S THAT SIMPLE.

We can help you create zoned rates for pickups if you have multiple locations or only one.

Call now to order a single PalletPak or to discuss your solution.
